## Health & Safety

Welcome to Washington DC!

The committee has been hard at work over the past couple of months promoting the Safety Excellence Awards. I am pleased to announce we did receive submissions from two chapters in our region this year! Many thanks to those who did participate and congratulations! Our regional first place winner will be submitted to the final round and will be announced at AMEC.

We are still active through social media, primarily through Facebook. We have over 400 likes and are well on our way to reaching the 500 likes milestone. The committee webpage on National's site has had a facelift. Stealing with pride, we modeled the committee page after the PD & E's page. It is updated regularly with free webinars, tool box talks, and current news topics. Remember to utilize the committee webpage and social media platforms as a reference to find relevant topics for upcoming member meetings or newsletters.

For the remainder of the year, we will be working to create a scoring rubric for the Safety Excellence Awards and refining the application. Please continue to read our monthly newsletter published in "The Connection" by National.

Stay safe,

Leah Curran
